LEADERS IN THE NEW ENGLAND COLLEGE TRACK MEET.

By FRANCIS P. O'HARA

Technology proved to have the best balanced team competing at the New England intercollegiate track meet at Tech Field yesterday and carried off the championship with a score of 61 points, beating Brown, its nearest competitor, by 11 points. This is the first time Technology has won the meet since 1924, and much credit is due Coach Frank Kansly for the all-round showing of the Tech athletes.

The high hurdles was the only event in which Technology failed to score, the sum total of championships gathered by them numbering six.

No records went by the board, nevertheless the competition was close in nearly all the events, and from a spectator's point of view it was one of the most successful meets the association has ever held. Brown, which finished second, was dangerous at all times, up to the high jump, being tied with Technology, but the Institute jumpers proved too strong a combination and took every place for a total of 11 points, which insured Tech the meet.

Pollard the Star

F. D. Pollard, Brown's football hero, was the star. This agile colored athlete showed the way to the best timber toppers of the association in both the high and low hurdles, being the only man to win two championships. He also captured third place in the broad jump with a leap of 21 feet 4 inches, only five inches behind Avery of Tech, the second place winner.

The times in the events were good considering the strong wind which blew across the field and greatly impeded the runners. The work of George McCarten of Technology in the half-mile was especially commendable and his time of 1m 9 5-5s under existing conditions was distinctly excellent.

The heats in the 100-yard dash brought together Foley of Holy Cross, White of Brown, O'Hara of Tech, Mullane of Brown, Bossett of Tech and Goldstein of Tufts for the finals. The six finalists got away to a perfect start and held even up to about the 50-yard mark, when Mullane and O'Hara opened up a little on the field. They held this advantage to the finish, O'Hara just getting the tape. White, who was having it out with Foley for third position, came strong in the last few yards and got the place.

Landers Good in the Furlong

In the furlong dash, White of Brown, Goldstein of Tufts, Landers of Tufts, Mullane of Brown and Anable and O'Hara of Tech made up the field for the final. The field did not break until the halfway mark, when Landers and Anable opened up about two yards on the others.

These two raced down the stretch on even terms up to about 10 yards from the finish, where Landers showed a little stronger and took first by about two feet. Mullane of Brown took third place and Goldstein of Tufts, fourth.

At the start of the quarter, C. W. Loomis of Technology raced away in the lead and before the rest of the field got going had opened up about five yards. He held this lead down the first stretch and around the turn, but here Murphy of Brown and Mahoney of Holy Cross took on new life and started to gradually cut down the lead.

Murphy was the first to challenge Loomis for the lead, but the latter fought gamely and relinquished it only after a hard fight. Murphy then continued in the lead to the tape. Mahoney passed Loomis just at the finish.

Burke more than a yard away; in fact, like the winner.

On the last stretch he came strongly and got on even terms with McCarten, but could not muster the necessary speed to get by. The fight for third place furnished a close contest between Stephens and Westland of Tech, the former getting the award.

Herzog of Technology made a run-away race of it in the mile, winning as he pleased by about 50 yards. Jones of Middlebury, second, was only a few yards ahead of Francis of Worcester Polytech and Crouch of Brown, who finished third and fourth respectively.

Lively Two-Mile Race

From the very outset of the two-mile run, Halfacre and McMahon of Technology showed they were out to make a race of it. Jones of Middlebury, who got second in the event last year, tried to come back after his race in the mile and break up the Technology combination.

His efforts in the mile, however, proved his undoing and after the three-quarter mark he had to drop back. Halfacre and McMahon held close together until the last quarter.

At the pistol for the last lap Halfacre gradually drew away to a safe lead, which he increased to the finish. In the last part of the race Jones brought the spectators to their feet by a heroic attempt to overtake McMahon, but McMahon proved equal to the occasion, let out a few notches and got second.

In the low hurdles F. D. Pollard, the Brown hurdler, won by about two yards over his teammate, J. F. Isaac, but in the high hurdles he had to work right up to the tape to defeat R. H. Taylor of Worcester Polytech.

Both Pollard and Taylor came over the last hurdle together and it was due only to Pollard's superior sprinting ability that he got first place by hardly a foot.

Honors for High Jumpers

Tech's high jump quartet will receive the plaudits of their schoolmates for some time, as it was due to their clean-up in the event that Tech was able to obtain the deciding advantage over Brown and break a possible tie score.

W. A. Sullivan, last year's champion, was forced to share the honor this year with P. D. Ash, both tieing at 5ft 9½in. Each will be given a medal, half gold and half silver, there being no jump-off. F. W. Childs and H. C. Pierce were also tied for the next place at 5ft 8in.

Bjorn of Trinity, the favorite for the broad jump, came through as expected, bettering his last year's jump of 22ft 1¾in. when he finished second to Worthington of Dartmouth, by 2¾ inches. Avery of Tech, Pollard of Brown and Wright of Tech got the other three places.

Field Events

Three inches separated Wright of Tech and Ames of Brown in the pole vault, the former doing 11ft 6in. The competitors in this event were greatly handicapped by the wind.

Sinclair of Brown beat his rival Nichols, also of Brown, by a scant ½ inch in the shotput, Sinclair's put being 39ft 4½in. Benson of Tech and McDonnell of Holy Cross scored the other two places.

Haselton of Worcester Polytech won the hammer throw with the ordinary performance of 166ft 4½in, while Nichols of Brown took the discus with a throw of 117ft 2in. On the whole, the weight events were not quite up to the standard of the running events. The summary:
