GUTTERSON THE ATHLETIC STAR

By MELVILLE E. WEBB JR.

SPRINGFIELD, May 20 — Williams purple triumphed over Dartmouth green today at the New England intercollegiate championship track games at the training school oval, the athletes from the Berkshires making an overwhelming sweep of the points in the running events, while Dartmouth failed to make the showing in the weights and jumps, which was expected to bring to Hanover its sixth championship.

Dartmouth, however, permanently secured the championship trophy, having won it five times in 10 years to four for Amherst and one for Williams.

Williams scored 30 points in the finals today to 24 for Dartmouth and 18 for the institute of Technology. Ten other colleges scored points this afternoon in this record-smashing carnival, for this it was indeed, as of the 14 championship events seven today were given new records to test the prowess of future New England college athletes.

University of Maine ranked next to Technology with 13 points, Vermont had 12, the score of the wonderful Gutterson. Amherst and Bates scored 11 points each, Brown had 9, Worces-

for polytechnic B, Wesleyan A, Colby and Trinity B each and Holy Cross, the rear guard. 2.

Early Trouble for Dartmouth.

The meeting was not very far along before the ill fortunes of Dartmouth were remarked in the steady rolling up of points by the Williams men. However it was not until the Williamstown boys had won Russell of Dartmouth shot out in the 100 and 200-yard dashes that they became confident that they would win.

Even when all the events were finished except the pole vault and Williams beat 20 to 22, the victory was not certain, for Dartmouth, with two men in the pole vault trials, could have tied Williams by taking the first two places. But before the event was decided, Wright of Dartmouth was disqualified and Williams was safe.

All that the athletes did not have yesterday in way of weather and track conditions came today, even against tradition. No New England games ever were more exciting or productive of better and more heart-racking sport of rousing and most sportswomanlike order.

Morover in five of the seven track events a new record was established and in every race in which the contest was had to make the circuit of the path there was produced a new mark. So plentiful were the shattered records that the rumor spread that the track was short—but this soon was dispelled by the production of the Springfield city engineer's certificate that the track really is two inches longer than a mile.

New Records.

In the track events new records were made in the quarter and half-mile runs, the mile and two mile and in the low hurdles. The hammer record also was set aside, as was the pole vault record.

In the quarter J. D. Lester of Williams ran a beautiful race in 20 3/4 and set aside a New England intercollegiate mark of 20 1/2, which has stood the hammering of 20 years since it was made by G. B. Shattuck of Amherst in 1891.

In the half mile W. H. Hodson of Bates did in 17 1/2, which broke the record of R. H. S. Barker of Technological, made in 1892 by 17 1/2.

Another mark, and an old one, was set aside in the mile. In 1890 A. L. Wright of Brown won the event in 16 1/2, and today, 15 years later, H. L. Leitch of Massachusetts Institute of Technology took seventh of a second off Wright's mark, Leitch's time being 16 1/4.

In the two-mile run F. I. Newton of Williams cut several seconds from the former record. Newton's time today was 42 1/2, which is 4 1/2 faster than the 47 1/4 which H. M. Usher of Brown did back in 1892.

Guttererson the Star.

A. L. Guttererson of Vermont, who was the greatest individual point winner of the day, clipped a fifth of a second from the low hurdles record. Guttererson's time was 23 3/4 seconds and the record that he broke was established by J. A. Hubbard of Amherst in 1890.

The performance of A. H. Tiley of Dartmouth in the hammer throw will stand as a new record. Yesterday, Madden of the Dartmouth team threw the missile 148 feet 5 1/2 inches, which was not allowed as a new record because the circling was not right. However, had Madden's mark stood, he would have lost his record today, as Tiley threw 149 feet 5 1/2 inches, a performance better by 4 inches than the record of 145 feet 5 1/2 inches held by Dennis of Bowdoin.

The other record made was by F. Mason of Trinity in the pole vault, winning with 21 feet 5 1/2 inches, beating Capt. Hodgson of Dartmouth, who set the old record of 21 feet 5 1/2 inches, but who was able to clear only 21 feet 4 inches this afternoon.

These performances made today's intercollegiate the greatest games ever held by the New England association and in the contests in which no marks were broken the competitors were close and the character of the performances of the highest standard.

Vermont's One Man.

A. L. Guttererson of University of Vermont scored all of Vermont's 22 points, which made the team rank fifth at the meeting. Besides breaking the low hurdle record, he won first place in the broad jump with a leap of 22 1/2 feet, which was within 2 1/2 of W. F. Hubbard's 250 record.

He also was third in the high jump, with a performance within 1/2 of an inch of the winning height of 4 1/2 feet, Guttererson doing 4 1/4 feet.

L. B. Young scored 10 of Amherst's 21 points, winning both the dashes. His performance in these events indicated well enough why he did not go into the quarter-mile at yesterday's trials, but he is likely to run the 400 in next week's intercollegiate at Cambridge.

Young won the 100 in 16 1/4 today and the 200 in 34 1/2.

F. I. Newton of Williams, besides winning the two-mile race in record time, also was second in the pole vault. He finished about 1 yard behind Keith of Worcester and was right close to Wright's old record Russell.

Williams Good on the Track.

Williams made a great showing in the track events, taking 22 places, netting 22 of the team's 22 points. Williams and Frate in the two-mile and quarter, second places in the mile, 20 and broad jump, third places in the 100, 200, mile and high hurdles and fourth in the 100 and 200 dashes and the high hurdles.

Dartmouth was well out into in the field events, the failure of Knight to win the high jump and of Loveloy to beat Bartlett of Brown hurting a lot. Russell was a great disappointment in the dashes and the three did not get a place in the quarter, although three boys had qualified.

The Harvard athletes took a fourth place in the two-mile and Smith was second in the low hurdles. These four points were all that came over the track-meet route.

Dartmouth did not score in the broad jump, but did so in all the other field
