SPRINGFIELD, May 22—Presenting an evenly balanced team which proved in every event but one on the program, Hartmouth walked away with the 1923 annual New England Intercollegiate meet at Frost Field today, scoring 50 points, and beating Maine, its nearest competitor, by 17 points.

Three records were by the board and a fourth was made but not allowed. The latter was in the broad jump, Frank Rogers of Dartmouth clearing 10' 11 1/2, and it was not allowed on account of a strong wind, which aided the jumper.

Dartmouth's greatest strength was in the field events. The weakness of the balance of the Dartmouth team is shown by the fact that they scored only three first places.

#### Kelly the Individual Star

Kelly of Holy Cross, who broke two records, was the individual star of the meet. This distinctive little sprinter from Holy Cross showed a clean pair of heels to what was considered the fastest set of sprint heels that has ever graced the New England meet. He sped the 100 to 1:14, winning from Steve of Maine, who was looked upon as a safe winner, by almost two yards. In the double hundred he again recorded his win over Steve, although in this race there was hardly an inch between the two at the finish.

Instead of the defeat of Steve in the two sprints and Morgan's failure in the high hurdles, due to his striking the stile and sprains elsewhere, the favorites came through in all the events. The track was rather slow with the exception of the sprints, but conditions otherwise were all that could be expected and the meet was run off smoothly and quickly.

Holy Cross and Bowdoin tied for third place with totals of 14 points and Tufts scored 12 points, making 19 1/2 points over Middlebury by two points.

#### Close Racing in Dash

The elimination trials of the day before brought it now into the semifinals in the 100, where of Tufts, the 11th man, having to defeat on account of a strained ankle sustained yesterday.

The dash brought another race of Maine, Charles of Bowdoin, Willie of Tufts, Kelly of Holy Cross, Harry of Williams and Dwight of Maine. There had about a yard on Charles and Harry, who had a close fight for third place, Charles just getting the decision.

In the 200-yard dash practically the same field came together in the final. At half-way Kelly and Steve began to open up on the field. They raced neck and neck down the path almost to the tape, Kelly showing a little stronger just before he threw himself across the line with another record to his credit.

#### Maine Takes the Quarter

At the start of the quarter dashing of Tufts jumped into the lead, closely followed by Larry and Billy of Dartmouth. The positions remained unchanged until coming into the last stretch. Steve Kelly stepped ahead, quickly followed by Morgan of Holy Cross, who had come in with a real position. Morgan proved Kelly closer by not counting quite yet, however, showed a good dash in the lane and won on Larry for third. The time, 5:15, was very good, considering the condition of the track.

The 400-yard proved to be no easy race for Morgan. He had been with the first quarter was finished, at which point he took the lead and was never headed. Bill, who showed second, had a good lead in the next two men, Harlow and Billy of Dartmouth.

#### Great Race in the Mile

One of the best races of the day came in the mile. From the very start Brown of Tufts and Bill of Maine, showed they were out to make a race of it. These two men finished first and second last year, Brown winning by a phenomenal kind of upset. At the half Brown had worked into good place, but Bill was right after him and probably did clearly. As the gate fell, the last lap had been covered about normally and leader.

There, when he returned, gave chase and the two fought for some time and the race ended. Brown began to gain at the 3/4 mark and looked as though he would get Bill. Instead of the last stretch, however, he tired and dropped back, Bill winning by several yards.

The race was very hard on particular Brown and looked to be somebody's race up to the last lap. Brown of Williams, James of Middlebury and William of Colby were both yards at heading the crowd. Brown had the best final sprint and took the lead.

## TALKS UPON COACHING

W. F. Garcelon Opens His Series of Conferences on Athletics at Harvard

William F. Garcelon of Harvard College gave the first of a series of conferences on athletics in Lawrence Hall, speaking on "Coaching, Track and Field." Many masters of the schools around Boston were present to hear Mr Garcelon, as his talk applied mostly to athletics as conducted in the high and preparatory schools.

Some of the principal points in the talk were on subjects that are the big difficulties in many of the schools of today. Mr Garcelon laid particular emphasis on the existence of guesswork in the training of school athletes and on the difficulties brought about by this guesswork.

He has found in his experience that in some schools there are men who have charge of the school athletic teams, who while they were in college never made a special study of athletics and consequently were incompetent to handle any athletes and any athletic event. Many athletes have been ruined in their preliminary training due to just this sort
