Florida A&M University's jumping, leaping and fast-running track team came through Cheney Stadium like a whirlwind Saturday, producing an 87 point performance, and leaving devastation and discontent in its path at the annual Southern Intercollegiate Athletic Conference's track and field championships.

Florida's 87 points was 58 points better than any other team performance, but the Rat-

tlers will have to wait until December to see if it is official or all in vain.

Atlanta's Morehouse college was second to Florida with 29 points, Allen University followed with 20 points and Alabama State garnered 20.

Coach Kenneth Gibson's team participation in the SIAC event was questioned by seven of the league's members on the point that the team had not fulfilled all requirements necessary to participate in the meet. It will be decided in December at the conference meeting.
